

PrintPAD MC70

June 29, 2007 (PB-0607-005)

Introducing the newest model of O'Neil's PrintPAD™ line: *The PrintPAD MC70*

- Lightning-fast processing
- Bluetooth communications
- External LED status indicators
- Easy to access external charging port

The mobile workplace is one of the most challenging of all environments due to the demands placed on equipment. Frequent drops, extreme vibration, constant jarring, and excessive dust are just a few examples of the regular abuse mobile technology products endure. No one understands this environment better than O'Neil. We've spent 26 years designing printers exclusively for the mobile workplace.

O'Neil continues to expand its unique PrintPAD product line with the introduction of the PrintPAD MC70; the first PrintPAD to incorporate O'Neil's new enhanced high speed electronic platform with the convenience of an integrated handheld computer and printer in a single product. The enhanced features of the PrintPAD MC70 include:

- ***Faster printing!***

The industry's fastest PrintPAD - Large graphics files and complex printing applications will be processed and printed quickly as a result of the MC70's faster processing speed and memory capacity.

The MC70 utilizes a processor that is 10 times faster than previous PrintPAD platforms. It also includes 4MB of Flash memory and 2MB of RAM. The increased memory allows more fonts, international character sets, logos, and graphics to be stored on the printer. No one is faster from "print" to "tear", even with complex graphics and barcodes; linear, rotated or 2-dimensional.

- ***More communication options!***

The PrintPAD MC70 Bluetooth option gives users greater flexibility in applications that require the hand-held computer to be frequently removed. Faster serial data transfer rates – up to 460.8 kbps – allow even faster printing of large and graphic-intensive print jobs.

- ***Easier to use!***

The new MC70 makes charging, paper handling, and battery removal easier than ever before. An external charging jack, redesigned battery clamps, and LED status indicators are just a few of the additional features that make the MC70 the best PrintPAD in the world.

PRODUCT BULLETIN

PrintPAD MC70

June 29, 2007 (PB-0607-005)

PrintPAD MC70	
Compatibility	Motorola models: MC7004, MC7090, MC7094
Connectivity: - Serial	Standard
- Bluetooth	Option
- DEX	Option
32-bit architecture RISC processor	✓
Flash/RAM memory capacity	4 MB/2 MB
RS-232 baud rate	up to 460.8 kbps
Optional card reader	✓
LED status indicators	✓
External charging port	✓
RoHS compliant	✓
Warranty	2 years
